

**WEST SOUND UTILITY DISTRICT
RESOLUTION 645-17**

**A RESOLUTION OF THE
WEST SOUND UTILITY DISTRICT BOARD OF COMMISSIONERS
APPROVING A SOLE SOURCE PURCHASE OF SCREW PRESS
EQUIPMENT FOR SKWRF**

WHEREAS, the District has allocated \$750,000 in the 2017-18 SKWRF Capital Improvement Budget for the replacement of the SKWRF centrifuge equipment with a screw press; and

WHEREAS, the screw press equipment to be installed at the Plant has a limited number of manufacturers; and

WHEREAS, the Plant Manager has been in contact with the manufacturing representatives of three companies that manufacture this specialized equipment; and

WHEREAS, the District staff has concluded that the purchase of this equipment qualifies as sole source acquisition based on the findings outlined in the Plant Manager's attached email (Exhibit "A") and that FKC Company LTD meets the criteria and needs of SKWRF; and

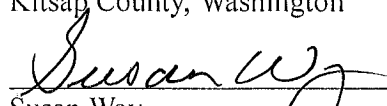

WHEREAS, according to District policy, the District's Board of Commissions need to approve by resolution a determination that the purchase of this specialized equipment qualifies as a sole source acquisition; **NOW, THEREFORE**,

THE BOARD OF COMMISSIONERS OF WEST SOUND UTILITY DISTRICT HEREBY RESOLVES:

Section 1. The Board of Commissioners has hereby determined that the purchase of the screw press equipment meets the criteria to quality as a sole source acquisition and FKC Company LTD meets the criteria and needs of SKWRF to supply this specialized equipment.

APPROVED and ADOPTED by the Board of Commissioners of West Sound Utility District at a Board meeting scheduled on March 6, 2017.

Subject: CIP Centrifuge Replacement

Michael,

I am requesting that the SKWRF identify a sole source procurement of equipment from FKC Company LTD. The equipment is a Screw Press to replace the existing end of life Dewatering Centrifuge. The project has been included and budgeted in the amount of \$750,000 for the total project in the 2017 – 2018 biennial budget for the SKWRF. The Screw Press cost is proposed at \$345,900 from the manufacturer.

SKWRF has contacted other manufacturer representatives to discuss needs and to determine applicability in the facility. Manufacturers that have been explored as this equipment is specialized and there are limited manufacturers:

- Huber Technology
- Schwing Bioset
- FKC Company LTD.

The reason for the sole source procurement is as follows:

- Only manufacturer willing to provide no cost onsite equipment performance pilot trial.
- Only manufacturer willing to provide included engineering services for fitment and modified equipment design to accommodate existing SKWRF structure and infrastructure.
- Only manufacturer able to manufacture provide trailer load distribution system for produced Biosolids.
- Only manufacturer to supply equipment that can be modified to produce Class A Biosolids in the future.
- Only manufacturer willing to provide included instrumentation and control of other integration of SKWRF owned processing equipment with manufacturer supplied polymer system.
- Only manufacturer willing to provide custom control system vs preprogrammed package. (There control panels are built and programmed by the same Instrumentation and Control company that we sole source with for panels and control systems. Technical Systems Inc.)
- Only manufacturer with readily available parts and factory service within Washington State. (Equipment is manufactured in Washington State)

Please let me know if you are in need of any other information to make a determination.

Respectfully,

Randy Screws
